JEFFREY MONTOYA

IT, Data & Business Systems

Dover, NJ · (201) 841-9697 · montjeffrey@gmail.com · linkedin.com/in/montjeffrey · github.com/montjeffrey · montjeffrey.dev

SUMMARY

IT and operations professional who runs the network, data and business systems for an NJ energy contractor: IT administration, KPI reporting for managers, utility program submissions and CRM administration. CompTIA Security+. Bilingual English/Spanish.

SKILLS

Business systems: Lawmatics, Docketwise, Salesforce, QuickBooks Online, LawPay, ADP, Orcatec, Microsoft 365, Google Workspace

Data & reporting: Excel (lookups, pivots, validation), SQL, Python and Playwright automation, KPI dashboards, ETL between systems

IT support: Windows and Linux, networking (TCP/IP, DNS, DHCP, Wi-Fi), endpoints, shared drives and access control, website hosting and DNS

EXPERIENCE

Data Administrator (Systems & Automation), Divine Energy Solutions Inc. Dec 2025 – Present

Dover, NJ · HVAC, insulation and weatherization contractor working NJ utility and clean-energy programs. Responsible for the company's IT, data and internal software, working directly with managers and leadership.

- **IT & network:** Implemented and now run the company's network and IT infrastructure end to end: staff accounts and devices, technical implementation of new systems, and incident response.
- **KPIs & incentives:** Work directly with managers to build the data pipelines behind their KPIs: Python and Playwright jobs reconcile Orcatec work against ADP hours with fuzzy matching, feeding the productivity and monthly incentive reports I deliver to leadership.
- **Utility programs:** Prepare NJ Clean Energy and utility program submissions, validate intake against program rules, and sync program data between systems (Comfort Partners measure codes into Orcatec jobs, SnuggPro review stages into the CRM).
- **Energy modeling:** Built an Excel savings-to-investment ratio (SIR) calculator for PSE&G program jobs that follows New Jersey TRM (Technical Reference Manual) standards.
- **Internal platform:** Designed and deployed the company's production CRM, replacing fragmented program, customer and job tracking with one system for scheduling, proposals, job closeout, invoicing and payments.
- **Brand & web:** Lead the company's branding, website redevelopment and local SEO.

Legal Assistant / Administrative Marketing Assistant, The Scheer Immigration Law Group Nov 2022 – Feb 2025

Morristown, NJ

- Administered Lawmatics (CRM) and Docketwise (CMS) across 1,000+ clients and 5,000+ records, keeping data consistent and audit-ready.
- First point of contact for phone, email and in-person inquiries; ran structured client intakes in English and Spanish.
- Ran the digitization of sensitive client documents: reorganized the file system and kept a complete log of every document as it was scanned and secured.
- Processed payments in LawPay and QuickBooks, and maintained the office network, workstations and shared drives.

Freelance Developer & Consultant, Self-employed Mar 2025 – Present

Remote

- Shipped and maintain production sites for three local businesses: elevatehrg.com (Next.js, county and city service pages, validated lead capture), thegenzmama.com (Next.js, TypeScript) and levelzbarberstudio.com (hand-coded static site with Booksy booking).

Earlier experience

- **Operations Manager**, CVS Health, Rockaway, NJ (2020 – 2022): Pharmacy systems support, Salesforce customer-experience cases, inventory audits and payroll reconciliation under HIPAA.
- **Mentor / IT Support**, Dover College Promise, County College of Morris, Dover, NJ (2019 – 2022): Sole IT resource for the program's network, wireless and endpoints; mentored students in technical and professional skills.
